Disposable Face Masks

Variants: 2 Ply Masks Tie/ Loop
3 Ply Mask Tie/ Loop
Face Masks with Eye Shield
Beard Masks
Activated Carbon Masks

Features:

- » Range of varied layers available, as per requirement (2/ 3/ 4 layers)
- » Soft and comfortable to wear in Tie & Ear Loop variants
- » Made of spun-bound Polypropylene fabric using ultrasonic sealing technology for superior protection
- » Includes a nose wire to ensure proper fit and controlled air passage
- » Available in different colours (White/ Blue/ Green)

Disposable Head Caps

Surgeon Caps

- » Made from spun-bond Polypropylene fabric
- » Fabric specifications – 25 GSM
- » Air-permeable fabric allows better air circulation
- » Is fluid-resistant
- » Light-weight
- » Helps control spread of contamination during procedures
- » Ensures perfect fit with the aid of elastic

Bouffant/ Nurse/ Crimp Caps

- » Made from spun-bond Polypropylene fabric
- » Fabric specifications – 10 -15 GSM
- » Air-permeable fabric allows better air circulation
- » Elastic ensures a perfect fit

Round Caps

- » Made from spun-bond Polypropylene fabric
- » Air-permeable fabric allows better air circulation
- » Elastic ensures a perfect fit
- » Fabric Specification – 20 to 30 GSM

Hood Caps & Hood with Eye Shield

- » Made from spun-bond Polypropylene fabric
- » Air-permeable fabric allows better air circulation
- » Elastic ensures a perfect fit
- » Fabric Specification – 20 to 30 GSM

Shoe Covers

Variants: PE Shoe Covers

Non Woven Shoe Covers

EVA Shoe Covers

Features:

- » Prevents spread of contaminants in a controlled environment
- » Made of non-abrasive Polyethylene film (30 micron LDPE or EVA or spunbond 25 GSM Polypropylene fabric)
- » Length - 16 inches and Height - 6.5 inches
- » Elastic ensures a comfortable fit

Gowns & Aprons

Variants: Patient gown (Non Woven/ SMS/ SMMS)

Attender Gown

Reinforced Gowns

Surgeon Gown (Non Woven/ SMS/ SMMS)

Wrap around gown

Scrub Suits

EVA Apron

PE Apron

Coverall Suits

Dental Apron

Non Woven Lab coat

Features:

- » Made of protective fluid-resistance material
- » Available in - SMMS, Spun-bound Polypropylene and - Ethyl Vinyl Acetate (EVA) and Plastic
- » Available in various sizes (Small, Medium and Large) to ensure proper fit
- » Available in Sterile and Non-Sterile Variants
- » Long sleeves and adjustable necklines provide better comfort
- » Ensures superior protection and helps maintain proper hygiene
- » Customisation done as per requirement

Gloves

ETHYL VINYL ACETATE (EVA) GLOVES

- » Available in sterile and non sterile variants
- » Available in various sizes (Small, Medium and Large) to ensure proper fit
- » Smooth for better sensitivity
- » Powder-free and odourless
- » Tested to ensure nil allergic effects or skin irritations.
- » Ambidextrous and easy to wear
- » Good strength

Latex & Nitrile Gloves

- » Made from Rubber
- » Comes in small, medium, larges and X large sizes
- » Ambidextrous
- » Superior quality

Bed Bath Towels/ Chlorhexidine Wipes

Sizes of the towelettes: 320 mm x 320 mm
320 mm x 300 mm
300 mm x 300 mm
240 mm x 320 mm
240 mm x 300 mm

*Any other sizes can be made as per requirement.

Features:

- » Medwipes, our bed bath towels made with an interest to reduce cross infection for patients.
- » It also contains glycerine to gently moisturise the recipients skin and also comes with a soothing aroma.
- » Anti Bacterial - CHG 2%
- » Microwaveable - Ensures a warm bath when required
- » Alcohol Free
- » Made from RO Water with ensured Ph balance.
- » Comes in packs of 5/ 10 towels as per requirement.

Benefits: Easy to use

No Water spillage
Anti bacterial
Saves Manning/ Nursing Costs and time.
Bio-degradable
Comes in re-sealable packs.

Underpads

Sizes of underpads: 60 cm x 60 cm
60 cm x 90 cm
60 cm x 180 cm

Features:

- » Keep beds, chairs and other surfaces dry.
- » Netted Channel for faster liquid absorption
- » Made of soft and fine fluff pulp.
- » Comes in packs of 1/ 5/ 10s packs as per requirement.

Benefits: Easy to use

High Absorbency
Soft top layer of non woven.
Non Toxic & Pyrogen Free

Adult Diapers

Sizes of adult diapers: Medium
Large
Extra Large

Features:

- » Tension-free, comfort and relaxing feeling.
- » Gives you a sense of security and safety.
- » For bed-ridden patients, it is the option to prevent any bed sores or rashes.
- » Relieves the problem of bad odor due to wetness.
- » Ideal for both men and women.

Benefits: Easy to use

High Absorbency
Non Toxic & Pyrogen Free

Hospital Kits/ Disposable Surgical Packs

Variants: General Surgery Kit (Major/ Minor)

HIV Kit
Delivery Kit (Normal/ Cesarean)
Knee Replacement Kit
LSCS Kit
Hip Replacement Kit
CABG Kit
Angio Kit
Ophthalmology Kits
ENT Kit
Dialysis Kit
Ultrasound procedure kits
TURP Kit
Surgeon gown Kits
Mayo Kits
HBSAG Kits
Cath lab kits
Laproscope kits

Highlights of our kits:

- » All kits are made as per customised requirements or can be delivered as per our specifications
- » EO Sterile
- » Made from highly reliable and tested raw materials.
- » Durable
- » Easy to use and dispose

Disposable Surgical/ Medical Drapes

Variants: Eye/ Ophthalmic Drapes

Angio Drapes
Spine Drapes
Knee Drapes (Replacement/ Arthroscopy)
Delivery Drape (Normal/ Cesarean)
Laproscope Drapes
TURP Drapes
PCNL Drapes
Leg Drapes (Leg "O"/ Leg "U")
Craniotomy Drapes
Disposable Plastic Sheets

Features:

- » Aid in meeting with the infection control guidelines
- » Environment-friendly
- » Provide protection for both healthcare professionals and patients
- » Designed for superior comfort for optimum performance
- » Ensures superior protection and helps maintain proper hygiene
- » EO Sterile

Non Woven Linen, Leggings & Sleeve Guards

Non Woven Linen:

- » Highly durable
- » Hygienic
- » Made in different sizes
- » Available in different colours
- » Available in different GSM as per requirement.

Non Woven Leggings

- » Highly durable
- » Hygienic
- » Made in different sizes
- » Available in different colours
- » Ensures ease of usage with a proper fit by elastic.
- » Available in different GSM as per requirement.

Non Woven Sleeve Guards:

- » Highly durable
- » Hygienic
- » Made in different sizes
- » Available in different colours
- » Ensures ease of usage with a proper fit by elastic.
- » Available in different GSM as per requirement.

Sterilization Chemical Indicators

ETO Chemical Indicators:

- » ETO Tape
- » Documentation Labels
- » Helix PCD
- » Class 4 Indicator strips
- » Class 5 Indicator strips

Steam Chemical Indicators:

- » Autoclave Tape
- » Documentation Labels
- » Helix PCD
- » Bowie & Dick Test Pack
- » Bowie & Dick Test Paper - A4
- » Class 4 Indicator strips
- » Class 5 Indicator strips
- » Class 6 Indicator strips

Plasma Chemical Indicators:

- » Documentation Labels
- » Helix PCD
- » Class 4 Indicator Strips

Sterilization Biological Indicators

Biological Indicators:

- » ETO
- » Steam
- » Plasma

Sterilisation Reels & Pouches

Our heat-sealable sterilization reels & Pouches are constructed from transparent PET/PP multi-layers copolymer film and medical grade paper. Process indicators for steam and ethylene oxide sterilization are applied on the paper surface of the reel and help to differentiate between processed and unprocessed packages.

All process indicators are water based and non-toxic inks and meet or exceed the requirements of ISO 11140-1 standard and provide accurate and clear color change after sterilization process.

Features:

- » Medical grade paper with technic 60gsm or 70gsm is an effective barrier against germs and bacteria. Despite of this, it permits the transmission of air, steam or sterilization gas.
- » It has a reinforced film to avoid tear during opening.
- » The peel-easy film permits film separation from paper without any shattering.
- » It has a clean and accurate indicator colour change.
- » It has tear, fiber-free opening and aseptic presentation.
- » It has a triple band seal for higher package integrity which effectively avoids cracking.

Sizes	Pack(Reels/CTN)
50 mm(2") X 200 mtr.	12
75 mm(3") X 200 mtr.	8
100 mm(4") X 200 mtr.	10
150 mm(6") X 200 mtr.	4
200 mm(8") X 200 mtr.	4
250 mm(10") X 200 mtr.	4
300 mm(12") X 200 mtr.	2
350 mm(14") X 200 mtr.	2
400 mm(16") X 200 mtr.	2
450 mm(18") X 200 mtr.	2
500 mm(20") X 200 mtr.	2
600 mm(24") X 200 METERS	2

Sterilisation Reels & Pouches (TYVEK)

Tyvek is a non-woven polyethylene fabric manufactured by Dupont. It is known for its outstanding strength, durability and tear resistance. It is used for Industries related to EO and Gamma sterilization. Tyvek is not suitable for steam sterilization, however it is perfectly compatible with the requirements of Vh202 (plasma) sterilization. It is also used as a primary option for gas sterilization as Tyvek hardly absorbs any toxic gases and thus results in for below legal limit values of residual toxic gas levels.

Features:

- » They have excellent microbial barrier properties against germs, bacteria and moisture.
- » They have very high resistance to penetration and has fiber-free peeling.
- » They can be easily peeled and has aseptic presentation.
- » They have clear and accurate colour change.

Sterilisation Wrappers

SMS, SMMS and SMMMS non-woven fabric are considerably water-proof and resilient. The non-woven material is made up of polypropylene fabric layers. They can be used either as inner or outer wrapping for medical devices. They are available in 35g for economy, 43g for regular weight, 50g for heavy duty and 60g for multi-pack.

SMS, SMMS and SMMMS wraps that are single or double wrapped are suitable for steam, ethylene oxide, hydrogen peroxide, plasma and irradiation sterilization methods. The memory free feature before and after sterilization ensures good aseptic presentation.
